# K. Sathwik V. Kamath

## Full-Stack-Developer

I am a passionate Full Stack Developer specializing in React, Node.js, and Firebase, with strong experience in building scalable, user-friendly web applications. Currently pursuing a Bachelor of Computer Applications (BCA) at St. Aloysius Deemed to be University, Mangaluru, graduating in 2026. Known for strong problem-solving skills, clean code practices, and hands-on project development across frontend and backend technologies.

## Education

- St Aloysius(Deemed to be University) 2023 – 2026  
Bachelor of Computer Applications (BCA)
- Sharada Pre-University College, Mangalore 2021 – 2023  
12th – Commerce (BSBA), 85%
- Lourdes Central School, Mangalore 2020 - 2021  
10th – CBSE, 80%

## Work Experience

- Tor-Secure March 2025 – June 2025  
Web Developer Intern
  - Developed a responsive personal portfolio website with smooth animations and a functional contact form.
  - Built clean and reusable frontend components ensuring maintainability and scalability. Optimized UI performance and ensured seamless cross-device compatibility.
- VRN INFOTECH Oct 2025 – Nov 2025  
Full-stack Intern
  - Developed and contributed to responsive, user-friendly websites for VRN Infotech and client projects.
  - Assisted in creating UI/UX layouts, landing pages, and functional components. Integrated APIs and interactive features to enhance website functionality.

## Projects

### VRN INFOTECH [Visit](#)

Tech Stack: React js

VRN Infotech is an IT solutions website that showcases services in web development, mobile app development, cybersecurity, and digital marketing. The site highlights the company's expertise in creating modern, responsive, and user-friendly digital solutions for businesses. It also provides details about technologies used, service packages, client-focused workflows, and contact options for project inquiries.

- Smooth animations and section-based navigation for a modern UX.
- Fully functional contact form with email integration.
- Responsive Web Development Services

### NetTrackr [Visit](#)

Tech Stack: React.js, Express, Firebase,

Frontend for an advanced link analytics platform with real-time visitor tracking and device/browser fingerprinting. Integrated maps and charts for visual analytics and deployed on Vercel.

- Captures detailed visitor data: device type, OS, browser, IP, location.
- Interactive maps to display exact visitor locations in real time.
- Dynamic analytics dashboard with traffic and engagement charts.
- Modular React components for scalability and maintainability.
